

Create a 250-word-minimum written report called `act_report.pdf` or `act_report.html` that communicates the insights and displays the visualization(s) produced from your wrangled data. This is to be framed as an external document, like a blog post or magazine article, for example.

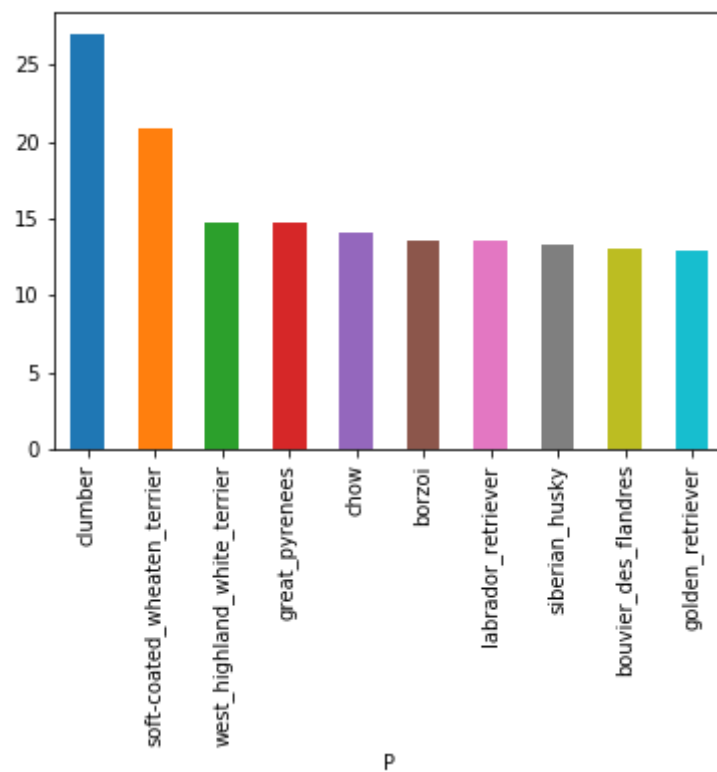

For the Image below, we can see that which dogs has the greatest rating numerator. A dumber being the highest rated dog followed by a soft wheaten terrier and so on.

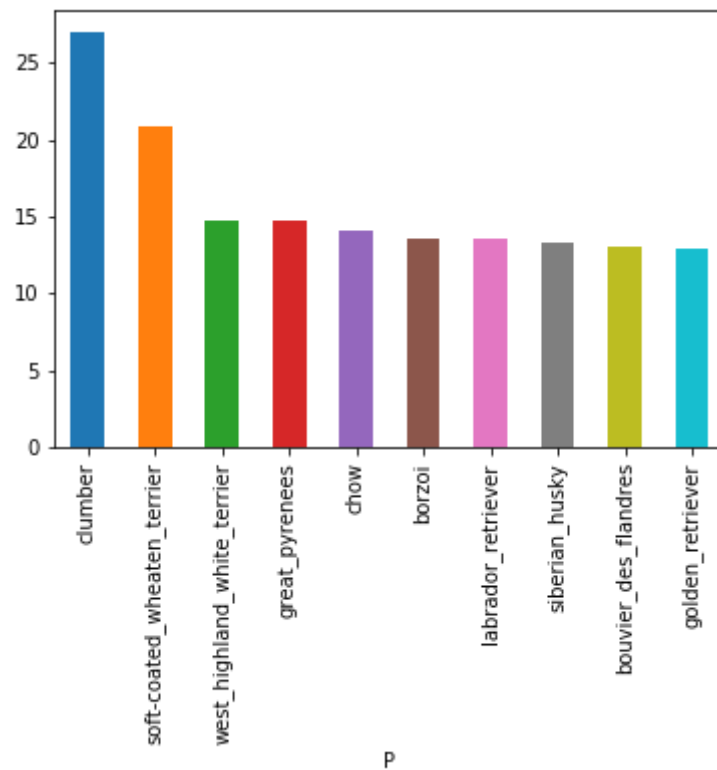

For the graph below, these were the dogs that had the highest favorit count, a Bedlington terrier being the dog with the highest favorit count.

For the graph below, I wanted to see which dog were mentioned more often and therefor asking the question which dog was the most popular and it turns out that golden retrievers on the top of that list.

For the graph below, i wanted to ask the question which stage is the dog more often then not when it makes an appearance on WERateDogs and it is the cute pupper that makes an appearance about 63% of the time.

Conclusion : We Rate Dogs is a fun place to rate dogs that goes beyond ratings literally. If you want ot take part in it then i recommend getting yourself a pupper golden retriever since that puppies are the most posted and golden reitrivers also the most popular.
